INTRODUCTION

In response to the increasing studies of North Korean affairs, and the increasing need for publications from this area, I have prepared this Union List of issues of ~~190~~ 189 serials and 36 newspapers which are available in the Library of Congress (DLC) and in four university libraries: Columbia University (symbol: NNC); Harvard-University (MH-HY); the University of California, Berkeley (CU); and the University of Washington, Seattle (WaU).

Included also are 86 serial and 30 newspaper titles found in published sources but of which no issues have been located in U. S. libraries. These titles, inserted in alphabetical sequence, are distinguished by the lack of holdings statements.

Libraries	Serials	Newspapers	Total
DLC	~~190~~	36	~~226~~
CU	62	5	67
NNC	47	10	~~57~~ 57
MH-HY	~~47~~ 46	5	~~52~~ 51
WaU	34	2	36
Not available	86	30	116
Total	466	88	~~554~~ 553 563

This list consists of two sections: 1. Serials, and 2. Newspapers in Korean, English, Russian, Japanese and Chinese. Amended also are indexes which include: 1. the translated names of corporate authors and titles in English; 2. a separate list of titles available from each library (except the Library of Congress); and 3. a list of titles in Russian, Japanese, and Chinese.

The distribution by language is as follows:

	Korean	English	Russian	Japanese	Chinese	Total
Serials	243	~~252~~ 247	4	2	2	~~276~~ 275
Newspapers	65	1				66

Entries are arranged alphabetically under romanized titles (in the case of the Korean language, according to the McCune-Reischauer system), followed by both the vernacular title and an English translation and the date of the first issue, if known.

Pertinent information for each entry is supplied in the following sequence: publisher, frequency, name of organization sponsoring the publication as its official organ, and notes. Since the majority of titles are published in P'yŏngyang, place of publication is given only for titles issued in other cities.

Information on the holdings of the five libraries covered is given as of December 31, 1970.

To facilitate the use of this union list, the "location numbers" used for the individual titles by the four libraries (except the East Asiatic Library of the University of California, Berkeley), are furnished immediately following their symbols: DLC, NNC, MH-HY and WaU; and the availability of some of the materials on microfilm is indicated at the end of the information on their holdings.

Finally, I acknowledge my indebtedness to the Social Science Research Council which provided me with financial aid to complete this list. I would also like to acknowledge the support and encouragement given me by Dr. Warren Tsuneishi and Dr. Edwin G. Beal, Chief and Assistant Chief of the Library's Orientalia Division; and by Dr. Gari K. Ledyard (Chairman) and members of the Joint Committee on Korean Studies, SSRC and ACLS.

My thanks are due also to Miss Yoon Whan Choi and Mr. Karl Lo of the Far Eastern Library, the University of Washington, Seattle;

Messrs. Sungha Kim and Eugene Wu of the Harvard-Yenching Library; Messrs. Yong Kyu Choo and Raymond Tang of the East Asiatic Library of the University of California, Berkeley; and Mr. Hyung-Suk Chai of the East Asian Library, Columbia University, for the assistance they have rendered in gathering data.
